

Members' Allowances for 2024/25 Financial Year

At the full Council meeting on 19th July 2023, allowances for the 2024/25 financial year were considered. The last Independent Remuneration Panel's (IRP) Report dated February 2020 (updated November 2020) and recommendations regarding Councillor allowances were taken into account.

It was resolved that:-

- the members allowance remained unaltered for the 2024/25 financial year at £250
- that no indexation in line with annual staff salary increases be applied to Councillor allowances
- that payment of the allowance is made in one lump sum at year end in March
- that Councillors be paid travel and subsistence costs in line with those agreed as part of the members allowance schedule for the District Council when travelling out of the Council area to visit another Council or attend conferences or seminars

A Councillor may choose not to receive all or part of any allowance to which they would otherwise be entitled to.
